

Project Pronghorn - FY GitHub Copilot SDK Challenge – Customer Release

The customer, The Government of Alberta, related to Project Pronghorn has released an MIT license and expressly shares public usage of the ideas and code related to Project Pronghorn.

The exact MIT License can be found here in this Official Government open-source repository: [pronghorn/LICENSE](#) at `main` · [pronghorn-red/pronghorn](#).

The Government has also publicly shared more details about Pronghorn on a public site.[Project Pronghorn | AI-Powered Software Development Platform](#). This is their non-Microsoft/Non-GitHub based implementation.

Customer Evidence Creation Agreement signing in progress.
